

Contents of volume 54

Volume 54, Nr. 1, MAY 2004

Papers

- 1 *S. Zhang, W. Shen and H. Ghenniwa*
A review of Internet-based product information sharing and visualization
- 17 *Y. Ren, H.T. Yau and Y.-S. Lee*
Clean-up tool path generation by contraction tool method for machining complex polyhedral models
- 35 *S.S.-F. Smith*
Using multiple genetic operators to reduce premature convergence in genetic assembly planning
- 51 *H. Lan, Y. Ding, J. Hong, H. Huang and B. Lu*
A web-based manufacturing service system for rapid product development
- 69 *S.F. Qin, R. Harrison, A.A. West and D.K. Wright*
Development of a novel 3D simulation modelling system for distributed manufacturing
- 83 *K. Steger-Jensen and C. Svensson*
Issues of mass customisation and supporting IT-solutions
- 105 *M. Ramírez, R. Haber, V. Peña and I. Rodríguez*
Fuzzy control of a multiple hearth furnace

Volume 54, Nr. 2, JUNE 2004

Papers

- 115 *J.D. Frutos and D. Borenstein*
A framework to support customer–company interaction in mass customization environments
- 137 *D. Assmann and T. Punter*
Towards partnership in software subcontracting
- 151 *G. Büyüközkan and O. Feyzioğlu*
A new approach based on soft computing to accelerate the selection of new product ideas

169 *M.N. Islam*

Functional dimensioning and tolerancing software for concurrent engineering applications

191 *V.B. Sunil and S.S. Pande*

WebROBOT: Internet based robotic assembly planning system 191

209 *S.W. Lye, S.G. Lee and B.H. Chew*

Virtual design and testing of protective packaging buffers

Volume 54, Nr. 3, AUGUST 2004

Papers

223 *M. Shakeri*

Implementation of an automated operation planning and optimum operation sequencing and tool selection algorithms

237 *W. Xiang, S.C. Fok and G. Thimm*

Agent-based composable simulation for virtual prototyping of fluid power system

253 *D. Tang*

An agent-based collaborative design system to facilitate active die-maker involvement in stamping part design

273 *S. Kornienko, O. Kornienko and J. Priese*

Application of multi-agent planning to the assignment problem

291 *C. Nwagboso, P. Georgakis and D. Dyke*

Time compression design with decision support for intelligent transport systems deployment

307 *H. Shen, B. Wall, M. Zaremba, Y. Chen and J. Browne*

Integration of business modelling methods for enterprise information system analysis and user requirements gathering

Erratum

325 *S.S. Pinter and M. Golani*

Erratum to "Discovering workflow models from activities' lifespans". [Comput. Ind. 53 (2004) 283–296]

327 Author index to volume 54

329 Subject index to volume 54
